# WHAT WE OFFER

## UNIQUE APPROACH

One-to-one online teaching is an effective and convenient way to take classes. Our expert teachers assess the subject knowledge needs and learning capabilities of every student to make learning very effective. Unlike classrooms with many students, here the teacher's full attention and time is spent for one student.

## EXPERT TEACHERS

Our highly qualified and experienced teachers are selected through a rigorous selection process. All our teachers have years of experience teaching students online. They are thoroughly vetted for their subject matter expertise and teaching capabilities.

## RECORDED SESSIONS

Our state of the art learning system enables students to study in a secure web environment, where teachers and students can draw problems on an interactive whiteboard, share files and test papers, and work on curriculum together. All the sessions are recorded and students can revisit their recordings anytime.

## SECURE AND FLEXIBLE

Online teaching allows students to have classes at their convenient time and right from the comforts of their home, saving many hours of commuting time. Even if students are traveling outside their city, they can still take their classes anytime, anywhere.

## UNLIMITED COURSE DURATION

We offer unmatched course duration to our students so they don't have to worry about it's completion. Our course is specifically designed to cover the complete syllabus. Once a student enrolls in any course, She/he will keep access to the course beyond a year. She/he will be free to revise any of the content, like articles and videos, to refresh their memory whenever they need to.

# WHY CHOOSE TO VACI

## RESULT DRIVEN

We at **Vidya Ashram Career Institute**, All our teachers are vetted for exceptionally and trained for excellence. The first session will be kicked off by an assessment, allowing the teacher to identify the level of students and personalize the sessions accordingly. The vast majority (estimated 95%) of students that learn with us see increase in their score of 40% on an average after having completed 8 to 10 teaching sessions.

## PERSONALIZED LEARNING EXPERIENCES

In today's competitive academic world, most students do well when they get personalized learning with an expert teacher. In fact, many leading educational psychologists have consistently confirmed through research, the power of personalized learning for maximizing student success. A detailed study by a well renowned educational psychologist, Benjamin Bloom who measured the effects of students learning with a tutor to deliver just-in-time, customized help proved that by the end of three weeks, the average student under tutoring was about two standard deviations above the average of the control class. That means that the average tutored student scored higher than 98 percent of the students in the control class. So, it is no surprise that many students who ace exams take personalized tutoring to score high grades.

# WHAT WE OFFER

## IMPROVE GRADES

Our students gain confidence, develop study skills & improve grades. The live, one-on-one online teaching from VACI has proactively helped many students to get better grades in school, and score well in competitive tests.

## SAME TEACHER EVERY TIME

- Unlike those who provide instant teaching or homework help only, our teachers spend time preparing for the sessions.
- Though our sessions are prescheduled, the student is free to contact the online teacher through instant messaging for any immediate help.
- Thus, when a student spends an hour with a VACI online teacher, the teacher would have invested more than one hour for that student.
- Our teacher knows the students' strengths and weaknesses and, unlike instant teachers who think of that day's homework only, works for the long-term success of the student.
- Instant teachers may change frequently making it difficult for them to analyze the areas that needs focus for a steady academic improvement.
- A VACI teacher builds a good rapport with the student, helping instill in the student a desire to learn

## TEACHERS WITH MASTERS

- Our teachers are highly qualified, and most of them have Masters' Degrees.
- Some of our teachers are Ph.D.s. At a minimum, every online teacher has a Bachelor's Degree in the concerned discipline they teach.
- They also go through our extensive training before they are put on the job.

## SAME TEXT BOOK

- We follow exactly the same textbook that the student follows in school.
- This helps the teacher to understand the student's needs clearly, and to synchronize online teaching sessions with the school lessons.

## MANAGED TUTORING

- Every child has an Education Manager who manages teaching to suit the child's needs, and maintains a relationship with the parents.
- This Manager also supervises the child's teacher(s) to ensure effective teaching.
- Over and above this, VACI has a Quality Control Department managed by Senior Education specialist, who step in to settle academic issues giving necessary directions to our teachers, thereby ensuring the highest quality of online teaching.

## VERY CONVENIENT

- Your child can participate from the comfortable environment of your home, saving the time and money you would spend commuting to a teaching center.
